Acceptance brace centre

Pedestal

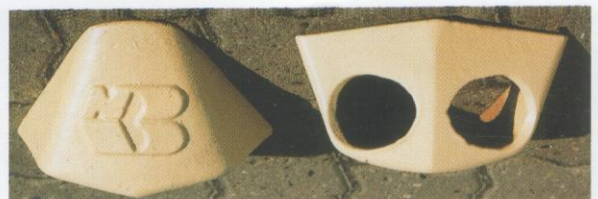

Normal dished end on head

Silo cone
Packed as export kit
Ready for shipment

Acceptance brace side

Crossbracing bracket

EXPORT KIT FOR

MOBILE SILO

TRANSPORT TECHNOLOGY

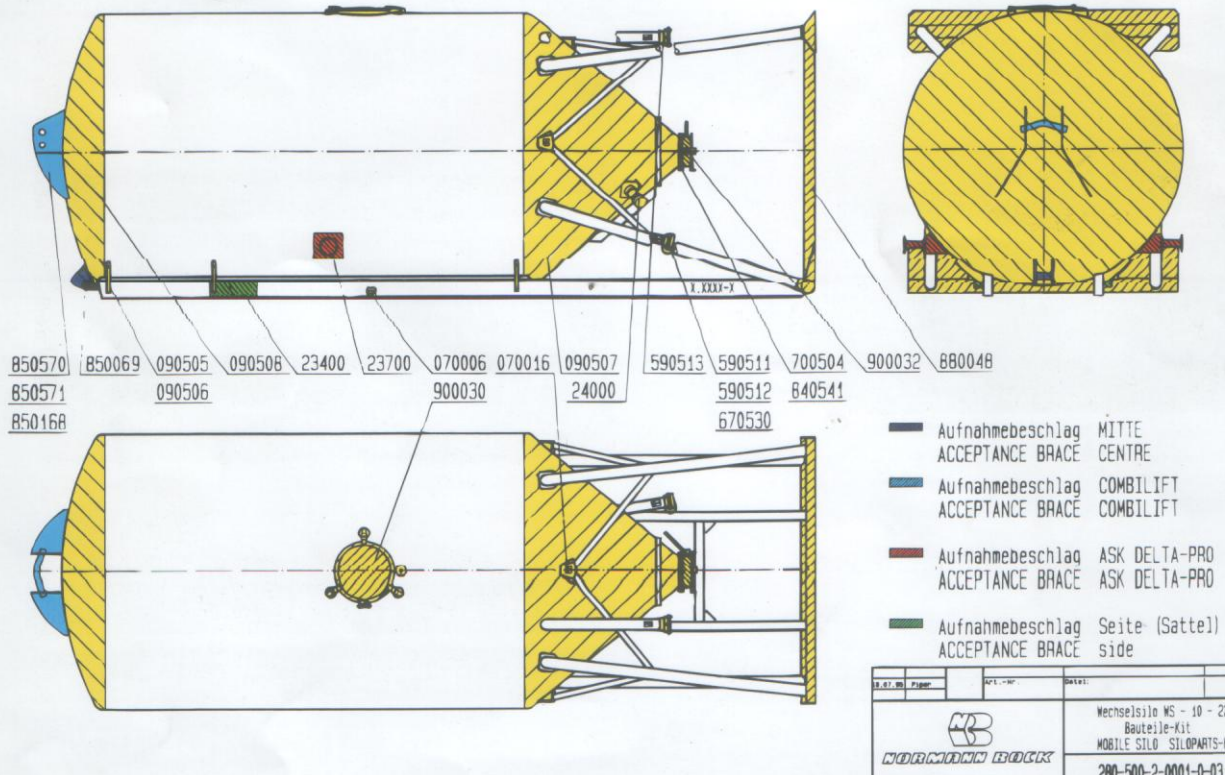

BOCK SILOSYSTEME

Mobile silos have been a popular and economic transport and storage system for many years, particularly in the construction industry.

For export purpose we offer a complete set of shop drawings, the main silo parts as an export kit and jig/fixture so that a local company is able to produce the mobile silos on high standard and quality.

Through their association with NORMANN BOCK Containertechnik several foreign companies are now promoting the mobile silo transport technology in their own countries.

Art.-No.	Description	Qty/silo
850570	leading-in, right	1
850571	leading-in, left	1
850168	acceptance bow	1
850069	acceptance brace centre, cast iron	1
090508	normal dished end on head	1
090505	boiler shoe, right	3
090506	boiler shoe, left	3
23400	acceptance brace, side cast iron	2
23700	acceptance brace, skip-loader, complete, cast iron	1
070006	transportation locking, cast iron	2
070016	crossbacing bracket cast iron	3
900030	silo dom, complete	1
090507	silo cone	1
24000	filling piece with throttle valve prop B, blind cover with rope	1
590513	prop A, 4", A 110	1
590511	prop B, 2,5" IG	1
590512	blind cover AL for rope	1
670530	rope connection for prop	1
700504	cone flange to outlap flap	1
840541	flange gasket to outlap flap	1
900032	outlap flap \varnothing 250	1
880048	pedestal	1
